

Roger Tracy

Roger David Tracy had a long career in aviation. He flew many types of small aircraft in Manitoba, Saskatchewan, British Columbia, and around the world. In Manitoba in the 1970's he flew Twin Otters out of Lynn Lake with La Ronge Aviation, and in the 1980's he was flying the Grumman Mallard out of Port Hardy.

Roger was a quiet, private person who enjoyed spending his free time with his wife, family and close friends. An outdoorsman, he enjoyed salmon fishing in B.C. He had a gift for wood tooling and created unique and personalised gifts for friends and family.

Born: September 28 1944

Died: September 1 2019
Alberta

Family: wife Pearl, and
one son, one daughter
Pilot
